WE'RE

new

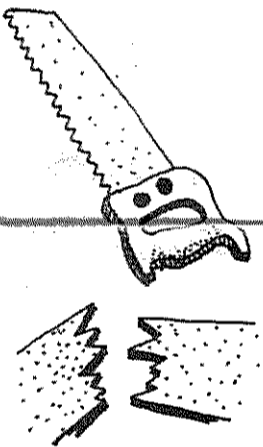

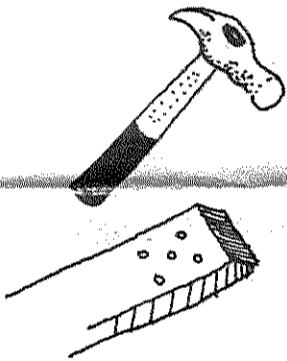

R+EMODELING

RODRIGUEZ SPECIALIZED Moulton BRICKSON

YES, WE'RE R+EMODELING. We're expanding our retail space so we can show you more tandems, more mountain bikes, and more bikes. Moving bikes and equipment around has shown us that we're drastically overstocked in some items. The ceiling is too full. We're having wheels of all types on special this month because we need the space. Vetta and Eclipse racks are taking up too much room. We have too many Racermates. Open up to the second and third page - you won't believe some of the prices.

We'll be dusty until about April 15 and fully operational again by the first of May. Come in and see the transformation in progress. You can see the full line of Bridgestone bicycles, the Moulton AM7, the Cannondale aluminum bikes, and the new Specialized Rockhopper.

Subscription Information

Your subscription to the R+E Newsletter is a benefit of buying at R+E Cycles. Every time we see your name and address - on your check, on a repair tag, when you buy a bike, on a special order, or when you fill out a mailing list form - we enter it on our mailing list. Everytime we enter your name your subscription is good for the next year. Let's say you bought a bike in June, 1984. Your subscription would expire June of 1985. But if you came in and bought a new pair of shorts in March your subscription is then extended until March of 1986.

The numbers on the mailing label are codes for us and remind you when your subscription is going to end. The first number changes everytime we mail the newsletter to you because we've added some new people and because some people haven't been in to see us in the past year. The second number is your subscription expiration date. You'll recognize your name, address, and zipcode; that's all there is to the mailing label.

If you'd like to extend your subscription, come in and give us your mailing address. If you'd like you can call us up, tell us the first number, your name, and the zipcode from the mailing label, with any changes and we'll be sure to extend your subscription for another year. If you don't want to receive this newsletter please let us know each time you buy something. This benefit of buying at R+E is that you'll be on top of the latest developments in cycling and the first shot at some great bargains at R+E Cycles.
