

# ULTIMATE TOURING

Originally this bicycle was designed and named the W2 Adventure (after Adventure Cyclist columnist Willie Weir) but its rugged construction and versatility quickly earned it the nickname Ultimate Touring Bike (or UTB). 26" mountain bike wheels and durable construction

coupled with the Rodriguez custom approach to bike building has made this Rodriguez a standard in the industry for the 'go everywhere' traveler and the best value on a bicycle in this class. The UTB is hand-made in Seattle but is priced similar to heavier, lower quality bikes made overseas.

## VERSATILE

The Rodriguez UTB is ready to conquer any terrain your heart desires. It is rugged, well-designed and with the Travel Option (\$700) can pack easily into a 26" X 26" suitcase for airline travel. If you want the ability to install fenders or mountain bike tires to ride over any terrain, the UTB is your bike. The Rodriguez UTB is perfect for the urban commuter as well as the go anywhere touring cyclist.

Willie Weir -  
on his Rodriguez W2 Adventure

### How is the UTB different than the Rodriguez Adventure?

The UTB uses 26" wheels instead of 700c, and the frame is built wider for mountain bike tires. That's the main difference.

26" wheels help in 2 ways:

#### Rugged or really wide tires:

Some people like the ability to install real mountain bike tires or really wide tires on their commuting/touring bike. 26" wheels make this possible.

#### Super Portability:

If you travel with your touring bike, the 26" wheels make packing the bike WAY easier.

- Available in 20 sizes to fit men and women (custom for just a \$200 upgrade)
- Available in 4 color choices (custom paint upgrade also available)
- Nine different decal options

# TEAM RODRIGUEZ

OUR CUSTOMERS TRAVEL THE WORLD  
ON THEIR RODRIGUEZ BICYCLES

Hi All-

The UTB has exceeded my expectations! .... Thanks to the excellent packing/unpacking DVD, taking it apart and getting it back together is a lot easier than I thought it would be. What a superb bicycle! I really appreciate the great fit, the excellent quality of the bike, and the on-going service and support from the Rodriguez team.

Best, Brian M.
